

Welcome to Arusha!

Paula Hunter, Executive Director
Mojaloop Community Meeting - April 2022

A photograph of a woman and a young child. The woman is wearing a bright red headscarf and a yellow top, smiling warmly at the camera. She is holding a young child who is also smiling. The child is wearing a pink and white striped long-sleeved shirt. The background is slightly blurred, showing what appears to be a simple, possibly outdoor or semi-outdoor, setting.

Everyone Benefits

From an Economy that

Includes Everyone

How Can Mojaloop Help?

Inclusive, Interoperable, Real-Time Payments

The Role of the Mojaloop Foundation

- Operates as a 501(c)(3) charitable organization and maintains its free, opensource software and community as a public goods in service of financial inclusion.
- Focus on expanding the work the Mojaloop project initiated in Africa, expanding engagement where there is the greatest opportunity to directly affect financial inclusion through interoperable payments.
- Engage with digital financial service providers, regulators, NGOs and governmental offices looking to address the critical challenges faced by local underserved communities.

Requirements

Capture market requirements to drive product strategy and roadmap

Development

Via Community: Enhance, test, document, and maintain code base

Advocacy

Educate market and increase awareness and consideration

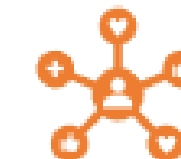

Training

Increase expertise in the industry to sell, deploy, and operate Mojaloop

Deployments

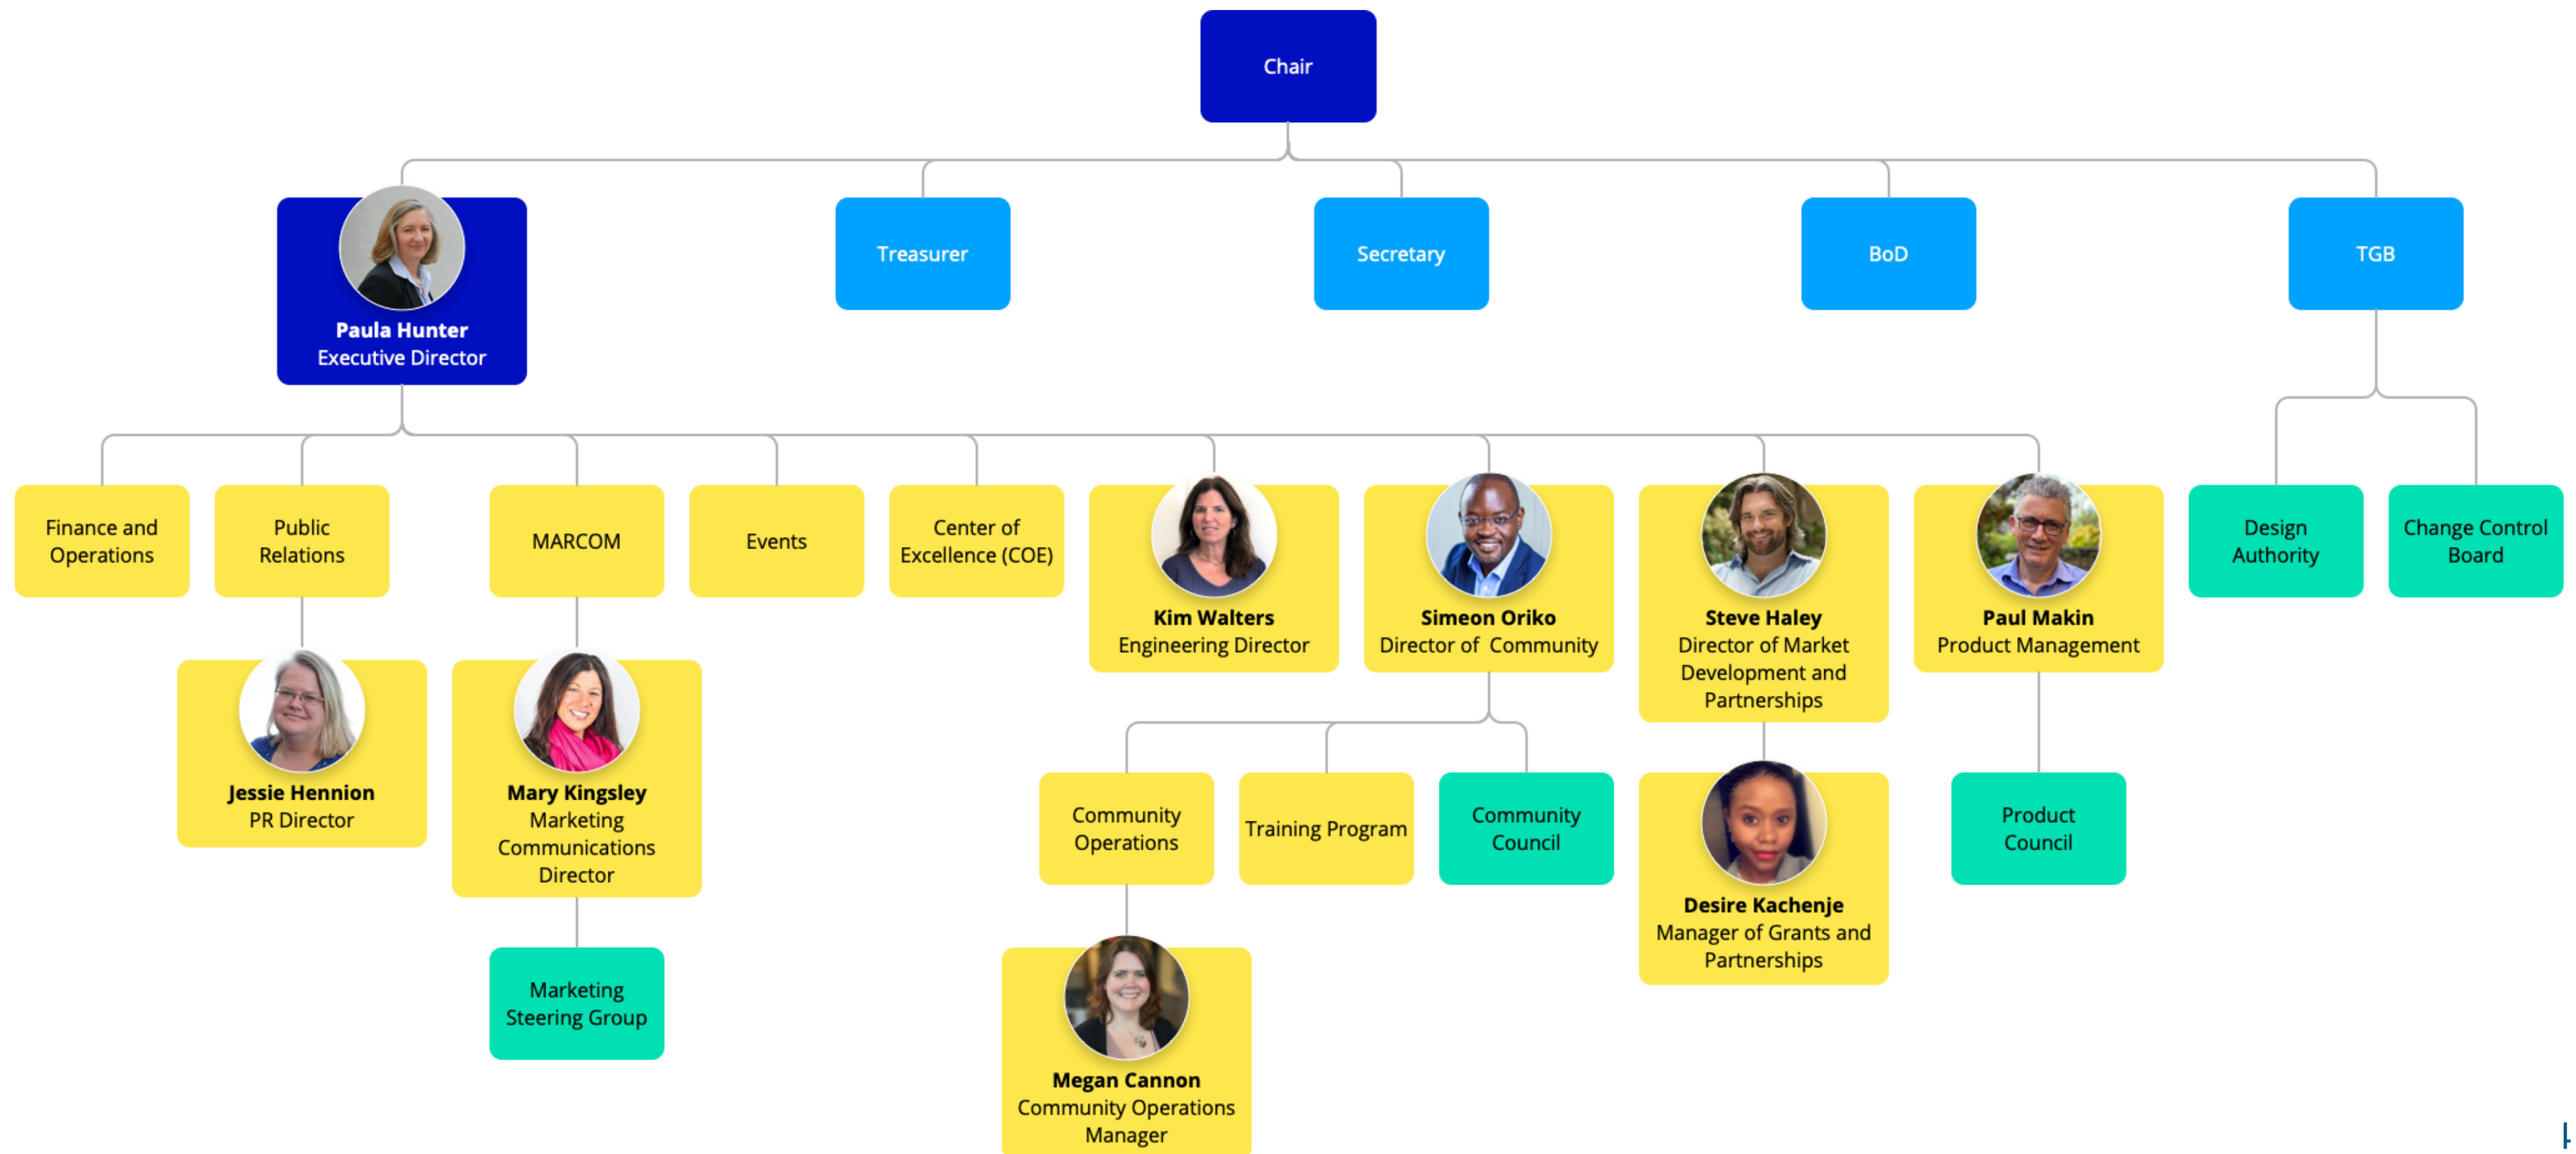

Members of the ecosystem provide implementation services

Operations

Customers and/or service providers operate Mojaloop deployments

The Mojaloop Foundation

Increase Adoption of Mojaloop Technology

Why

- The way to achieve or mission
- The rationale for further investment in the Mojaloop Foundation

How

- Find additional partners to support deployments
- Have a clear path for funding new deployments
- Engage strategic partners

Identify Grants / Funding for Deployments and Projects

Why

- Reduces barriers for central banks that may not have funds for new projects
- Signal to the market that there is business opportunity with Mojaloop
- Fund special projects

How

- Active program to prioritize targets, engage (sell), secure, and administer grants

Mojaloop Foundation CY2022 Priorities

Expand Membership > Community Engagement

Why

- Increases contributions to development efforts
- Reduces dependency on funded development
- Increases credibility
- Dues helps fund operational expenses

How

- Prioritize targets - Technology fit, market and geographic match, mission alignment

What are your long-term priorities?

Technology | Building Capacity
Business| Project Funding ...

Mojaloop Foundation's Wholesale CBDC Initiative

- Form “CBDC Center of Excellence”, headquarters: Singapore
- Open-source project, starting with the hiring of CBDC COE staff
 - COE Director, Engineering Director, Community Manager, DEV/OPS specialist
 - Ongoing push for new MLF members and funding sponsors of project
- CBDC Working group to be launched
 - Open to all for participation and contribution
 - Governance of WG overseen by MLF Member companies and funding partners
 - Scope of project drafted, WG to provide next level of details

The Promise of CBDCs

- **CBDC reduces the reliance on banks and other financial institutions.** It can be the medium that fosters the financial inclusion of the underserved populace.
- Can be universally accessible and widely used
 - Accelerate aid payments (G2P)
- CBDCs reduce dependence on physical cash, thereby making the distribution of money more efficient
- CBDCs may be cheaper than other digital financial services

Mojaloop and Wholesale CBDC – Beyond the Code

Identify pilot projects aligned with our focus

Participate in financial inclusion workshops and hackathons

Collaborate on the development of a CBDC toolkit

Business Directory

- The directory makes it easy for Mojaloop adopters and others to identify contacts that are able to respond to their inquiries.
- Mojaloop Business Directory Registration: <https://mojaloop.io/mojaloop-business-directory/>

Consultants

Provide analysis, architecture and advisory support to enable adopters to make the best possible choices.

System Integrators (SI)

Provide systems integration leadership or support for deployment, implementation, management, extension, and customization, while making use of enterprise-grade communications and workflows.

Technical Solution Providers

Enable adopters and testers to get started quickly and easily with test environments, testing toolkits, APIs and pre-integrated solutions.

Training Organizations

Provide standard or tailored training and guidance for adopters to build the skills needed for deployments and daily operations.

Operations Support / BizOps

Provide expertise and best practice guidance or allocate resource capacity for operational support.
