- Tom Daly
- Vijay Guthi
- Warren Carew
- Mojaloop Foundation

Summary

1. Mojaloop Sandbox on AWS, Roadmap
2. Mojaloop Sandbox support for **v14.0.0**, **v14.1.0**

Mojaloop Sandbox

1. Mojaloop Sandbox on MLF AWS

- Initial setup, **v13.1.0**
- Currently available on VPN with security profiles created
- Mojaloop APIs made available
- Deployed with IaC
- Quick and efficient process
- Usage for demonstrations, hackathons, workshops, testing

2. Mojaloop Sandbox support for **v14.0.0**, **v14.1.0**

Mojaloop Sandbox PI-19

1. Mojaloop Sandbox on MLF AWS

- Initial setup, **v13.1.0**
- Currently available on VPN with security profiles created
- Mojaloop APIs made available
- Deployed with IaC
- Quick and efficient process

2. Mojaloop Sandbox support for **v14.0.0**, **v14.1.0**

3. Roadmap

- Making sandbox **available** for workshops, hackathons and individual contributors
- **Refresh** periodically to use latest mojaloop , IaC, supporting components versions
- Support usage during demonstrations, hackathons

IaC Support for v14.1.0

1. Most work related to updating to **ingress v1** across Mojaloop and third-party components.
2. Required upgrades to **Nginx** ingress controllers with corresponding configuration changes.
3. Testing updates for **TTK** (thanks to Vijay)
4. Full **end to end** testing completed
5. **v2.3.0** Release of IaC to support **v14.1.0**

Thank you!
