

Mojaloop on Azure

Jason Gregory
27th October 2022

Project Review and Next Steps

Drive ease of adoption by leveraging Azure capabilities

Three Solution Goals & Follow-Up

Operational and cost optimization

Automated deployment of “Customizable” template leveraging Azure native PaaS Services

Ease of deployment for adopters

One-click deployment via the Azure Marketplace

Simplified geo-deployment in regulated markets

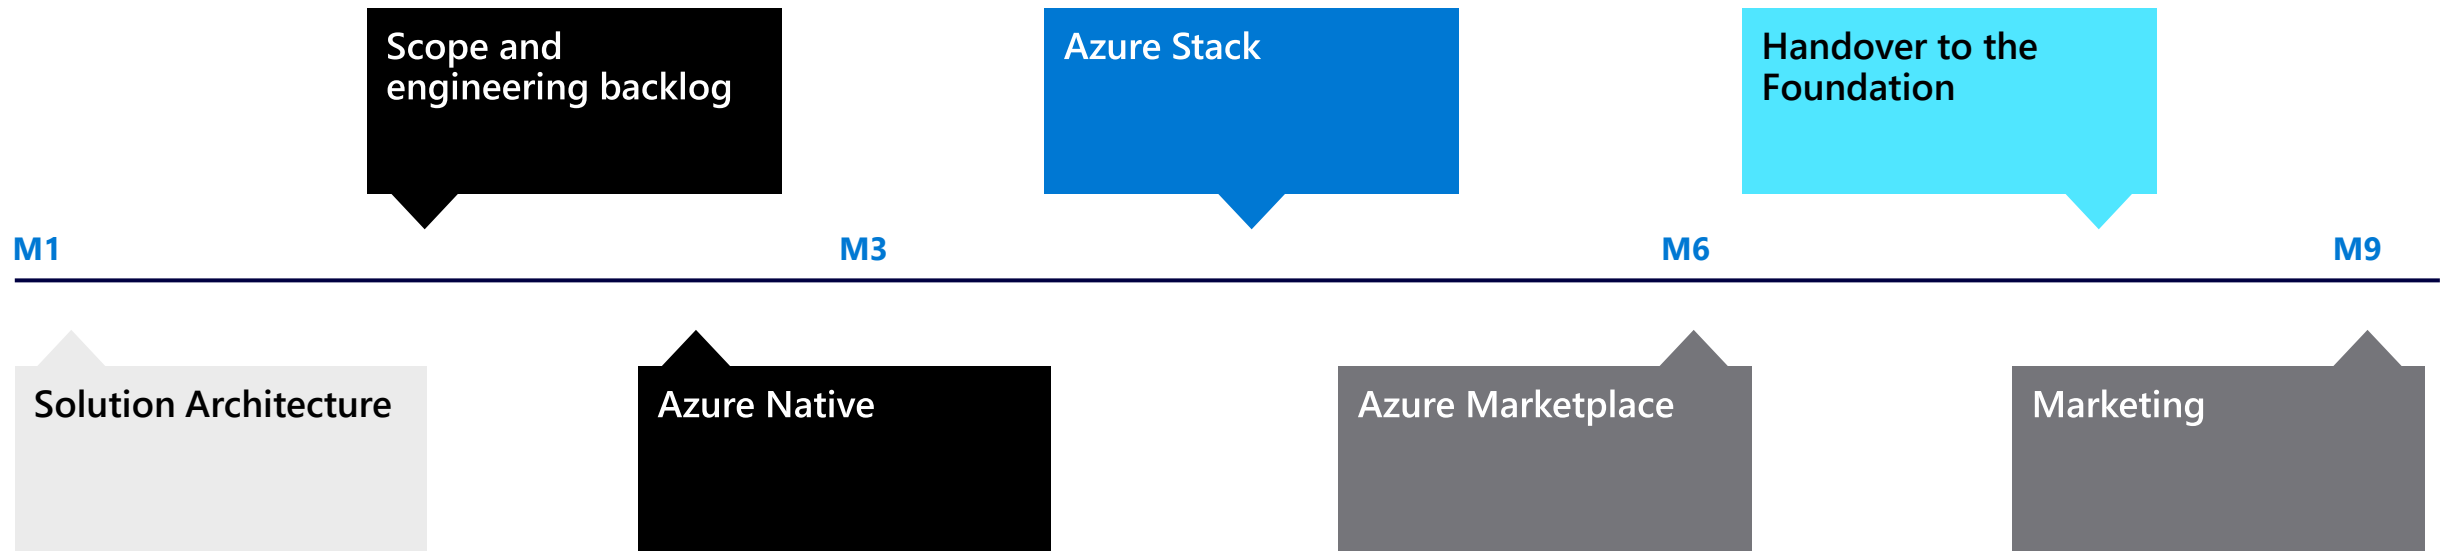

Leveraging Azure Hybrid capabilities via Azure Stack

Go-to-market motion with Africa Transformation Office

Media, roadshow, customer engagement

Timeline

Completion Status

Azure Native

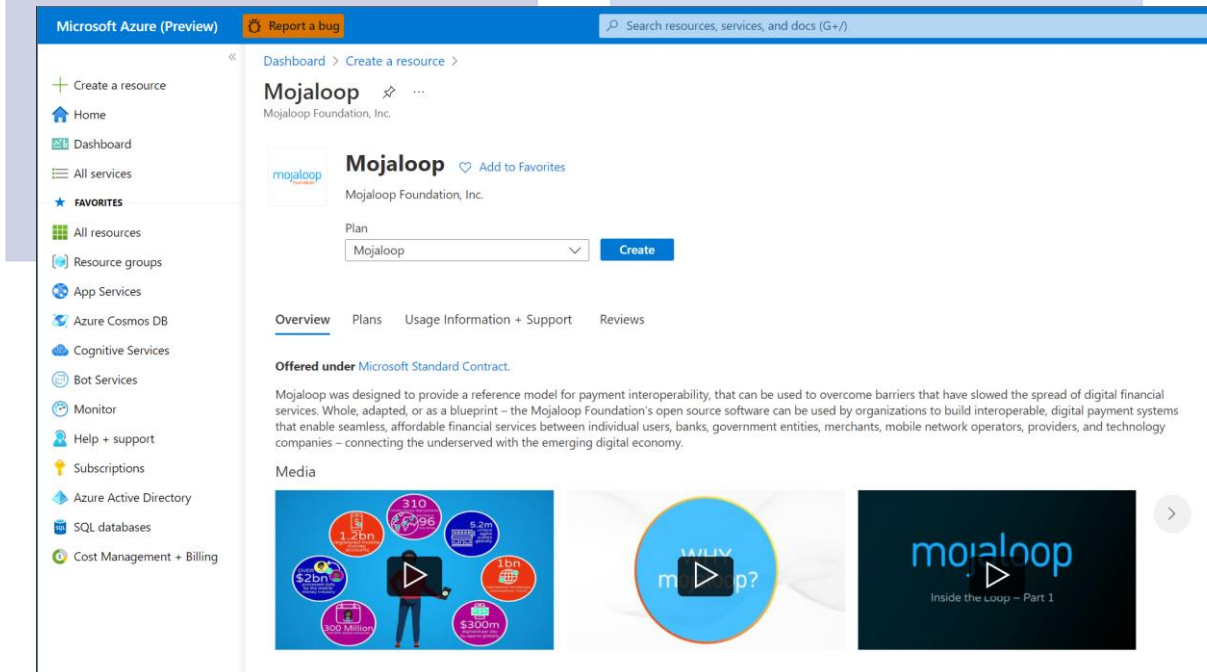

- AKS
- API Manager
- Updates to containers
- DBaaS
- ~~Event Hubs~~
- Deployment Scripts
- Test Suite

Azure Stack

- Azure Stack Hub
- Infra pre-requisites
- Automated deploy

Azure Marketplace

- One-click deploy of Azure Native
- Public Availability

Next Steps – Phase 2

Foundation Handover

- Technical Assets, Marketplace Assets (Subscription)

Version Upgrade

- Revision to latest release
- Leverage Phase1 process and assets

Updates to Leverage Azure Stack HCI

- More on-prem opportunities
- Commodity hardware

Reference Implementation

- Ease of “full stack” adoption

Data & AI Opportunities

- Sponsorship from Microsoft OCTO

Thank you.
