Goal	**Deliver v1 of 3PPI integrated into upstream Mojaloop**	
Key Epics	CCB Adoption of Third Party API v1.0	Address Transfer Implementation Gaps between Draft 0.1 + Current API v1.0
	Integrate PISP functionality with upstream Mojaloop Releases + QA + Docs	
Not Doing now but important next	Production Ready API + Services Deployment + integration guides for Hub Operators + DFSP (+ PISP covered in Sandbox workstream)	Payment Manager support for DFSPs supporting PISPs
Success Defined How?	Ready to support a hackathon with Third Party API	

|		
Goal	**Deliver v1 of 3PPI integrated into upstream Mojaloop**	
Key Epics	CCB Adoption of Third Party **95% Final Review of Specification Docs**	Address Transfer Implementation Gaps between Draft 0.1 + Current API v1.0 **DONE**
	Integrate PISP functionality with upstream Mojaloop Releases + QA + Docs **Next Minor Release - v13.1.0**	
Not Doing now but important next	Production Ready API + Services Deployment + integration guides for Hub Operators + DFSP (+ PISP covered in Sandbox workstream)	Payment Manager support for DFSPs supporting PISPs
Success Defined How?	Ready to support a hackathon with Third Party API	

Workstream Progress

- 14 Issues Closed
- Third Party API v1.0 Pull Request:

github.com/mojaloop/mojaloop-specification/pull/90

Hackathon-user Demo

As a *fintech-focussed Hackathon participant,*

I want *a use case guide, working sandbox, easy to integration guide,*

So that *I can build out a compelling demo in a short timeframe.*

Ready to Support Hackathons?

- Linking and Transfer Guides at sandbox.mojaloop.io

- DFSP Simulators with 3PPI Support for OTP based logins

- FIDO Test Credentials site

So What Actually Happened?

We used the Sandbox to support 2 events:
- MAS CBDC Hackathon
- HiPipo Women in Fintech Hackathon

Tune in to the later session to learn what happened.

"You won't believe what weird things these teams came up with…"

Goal	**3PPI Ready for Production Use: An existing/new implementer can deploy with some hand-holding.**	
Key Epics	Productionize and Profile Third Party Components	DFSP Responsibility + Integration Guide
	Payment Manager support for DFSPs supporting PISPs	Template Scheme Rules
Not Doing now but important next	?	?
Success Defined How?	Existing Implementer Deploys 3PPI Features in Test/Dev Environment	

Help Us Plan!

- No breakout session for this workstream tomorrow.

- Workstream Planning Session scheduled for Wednesday 3rd of November, 1pm UTC

- Will be on Teamup (once I reset my password)
